Rugby Farmers Mart and MSD are partnering together to highlight the importance of vaccination to improve performance and to reduce lamb losses from preventable disease.

We have encouraged sellers to vaccinate their ewes against toxoplasmosis, footrot, enzootic abortion, clostridial disease and pasteurellosis prior to bringing them to the breeding ewe sales.

Animals that have been vaccinated* will be highlighted in the sale catalogue with the following logos;

H = vaccinated with Heptavac® P plus (clostridial disease and pasteurellosis)

T = vaccinated with Toxovax® (toxoplasmosis)

F = vaccinated with Footvax® (footrot)

E = vaccinated with Enzovax® (enzootic abortion)

*** Rugby Farmers Mart has been issued with a declaration to confirm where & when the vaccine was purchased for administration.**

The following Mortality Warranty will apply only where the Buyer makes payment of the additional mortality warranty premium at the time of purchase.

1. Mortality Warranty

Subject to the conditions set out below RFM agrees to repay the hammer price of any animal sold at its auctions which dies within seven days of the date of the fall of the hammer as a direct result of a condition which existed at the time of the fall of the hammer ("the mortality warranty"). RFM will not make any payment over and above the hammer price nor reimburse any consequential losses or incidental expenses incurred.

2. Conditions

The conditions which must be satisfied before payment by RFM pursuant to the Mortality Warranty set out in sub condition 1 above are as follows:

2.1 The Buyer must notify RFM in writing of the death of an animal which may give rise to a claim pursuant to the Mortality Warranty ("a Claim Notice") so that such Claim Notice is received in the office of RFM within 24 hours of such death and then at the Buyer's own cost produce a certificate from a qualified veterinary surgeon:

- a) Confirming the cause of death, and
- b) Confirming the veterinary surgeon's opinion that such cause existed at the time of the fall of the hammer, and
- c) Confirming whether, in the veterinary surgeon's opinion, there is anything which might give rise to the belief that at the time of the sale

2.3 The Buyer shall not dispose of any animal in respect of which they intend to claim pursuant to the Mortality Warranty until three days have expired since the Buyer has given a Claim Notice and given the opportunity for RFM or its nominated veterinary surgeon to inspect such animal as soon as it wishes during that time.

2.4 No payment will be made pursuant to the Mortality Warranty where RFM's veterinary surgeon certifies that the Buyer or the employee's agents, subcontractors or independent contractors engaged by the Buyer or their agents have caused or contributed to the death of the animal by the Buyer's own actions or omissions or those of the Buyer's employees agents subcontractors or independent contractors and the certificate of such veterinary surgeon shall be final and binding upon the Buyer and RFM.

3. Vendor's Responsibility

If in the opinion of the veterinary surgeon whose opinion shall be binding on the vendor the vendor of any stock the subject of a claim pursuant to the Mortality Warranty knew, ought to have known, or had good reason to suspect the existence of the condition which caused such death at the time of sale then RFM will not pay the vendor for such stock or if payment has already been made to the vendor shall repay the hammer price of such stock to RFM within three days of demand.

4. General

4.1 All the times set out in Clause 2 above shall be of the essence.
