Farm Crisis Network bTB research + survey

Please can as many farmers as possible complete the below

As part of this research FCN will be running a survey from June until mid-August: <https://www.surveymonkey.co.uk/r/3HG5YFG>

This has been designed with input from colleagues and academics and is to be shared with livestock/cattle farmers in the UK. We want as many farmers as possible to fill it in so that we can gain a wealth of data from across the whole of the UK. It should take no more than 10 minutes to complete.

The results of the survey will help FCN to better understand how farmers and farm families perceive the threat of bTB, helping us to support those at risk or affected by a bTB breakdown.

A press release with more information has been written and issued to media earlier today, and is available here: <https://fcn.org.uk/blog/2023/06/05/study-seeks-uk-farmers-feedback-on-impacts-of-bovine-tuberculosis/>.
