BREEDING SALE CATALOGUE

Catalogue presented WITHOUT PREJUDICE For guidance only.

FOREWORD

The Board and Staff of RFM Ltd are delighted to be able to Welcome you to Stoneleigh Park. To be instructed to act on behalf of such long standing, loyal Customers as the Semple Family is an honour recognised by the Board of Directors.

Paul and Jessica, supported by Paul's Parents John and Brenda, aswell as Paul's brother Will who has worked tirelessly, have endeavoured to produce quality Limousin Cattle for the last decade, attracting returning Customers for Cattle that show forward for age and feed easily to high grading Butchers Beef. The Store Cattle Sale results of Goodrest Farm match any and have continued to progress yearly.

Starting from afresh the Semple Family have forged ahead in breeding a high quality Polled Herd striving to breed Polled Stock but without prejudicing the conformation or performance of their Sale Stock, something that they have managed to achieve seamlessly as they have crossed from their original Herd into the establishment of the Polled Herd. This Sale provides an opportunity to fast track any breeders desire to move towards Polled Genetics. Investment into European Bloods means some unique Genetics are held within the most recent births upon the Farm and this Sale is recommended to those with an eye to Polled Stock and also those wishing to add ease of Calving traits to their Herd.

Commercial Cows from Goodrest hold an equal appeal to Commercial Farmers looking to add numbers to their Herd at a time of Prosperity and Optimism within the Beef Sector. This Herd consists of Cows that are required to work for their living and are hardy rearing quality Calves of a Forage based diet. The High Health designation of the Herd offers a unique opportunity for Buyers to bid with extra confidence when adding Stock to their own Herds.

We take this opportunity to Thank the Semple Family for their Support of RFM Ltd and highly recommend attendance!

Goodrest Polled Limousins.

Thank you for attending the Semple Dispersal Sale of Goodrest Pedigree Limousins and Commercial Cattle, and production sale of French Genetic Limousins from Nigel Hollick, Honesberrie Herd.

The Semple family are reaching the end of their tenancy at Goodrest Farm and are ending their farming journey with their tenancy. During 2024 and 2025, complete Dispersal of all livestock and assets will take place with sales of Machinery and other farm items during this time.

Paul and Jessica would like thank everybody that has supported their ventures over the years and anyone that has purchased cattle in the past or are here for the Sale today.

Most of the cattle from Goodrest are polled. We predominantly chose this route for welfare, ease and financial reasons. Polled Limousins are relatively new to the UK. Over the past 12 years, we have used European and English genetics to produce strong, quick growing polled cattle that are easy calving with good dispositions. Cow lines must have strong maternal traits. A homozygous polled Bull added to a herd of horned Cows will eliminate any need to dehorn ANY calves.

Homozygous Polled = Carry two copies of polled gene.

100% of calves will be polled to horned cows

Heterozygous Polled = Carry one copy of polled gene and one copy of horned gene

50% of calves to horned cows will be polled (approx)

Honesberrie Limousins

The Honesberrie Herd, Priors Marston in Warwickshire is located in Priors Marson, Warwickshire. The herd was founded in 2006 using French Genetics.

Honesberrie Cattle work to produce females that calve naturally with high levels of milk. Honesberrie are breeding Bulls that suit both beef and dairy herds, producing good muscle and skeletal balance with high growth rates.

Vendors' Index

The pedigree, performance, DNA, health information and footnotes included in Society sale catalogues is as supplied by, or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Limousin Cattle Society Ltd (BLCS). It should be noted that the Estimated Breeding Values for all animals change over time, as new performance records come available. While the BLCS and Genesure Ltd seek to ensure that the information contained in catalogues is accurate at the time of printing in accordance with their terms and conditions, no warranty is given in respect thereof by the BLCS and, to the maximum extent permitted by law, the BLCS shall have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained in or omitted from this publication. Genesure Ltd's liability is limited to the extent set out in its terms and conditions (a copy is available from the BLCS office upon request).

Herd Health at British Limousin Cattle Society (BLCS) Collective Sales

Introduction

Herd health rules were introduced by the BLCS at nominated premier Collective Society Sales and these are now in place at all premier BLCS Collective Sales (Stirling February & October; Carlisle February, May, October & December; Brecon May & November). The principal aim is to standardise herd health declarations and information presented in order to provide both members and customers alike with clear, accurate herd health information at the point of sale and within the given sale catalogue. As such it is attractive and informative for customers and aims to further raise the level of buyer confidence.

BLCS Herd Health Rules have two principal elements:

Part 1. Herds selling at the premier Collective Society Sales have to be members of, and adhering to, the terms of a CHcCS approved Herd Health Scheme. At a minimum, this must include a whole herd test for Johne's disease.

Part 2. All animals male and female, including calves at foot, presented at the premier Collective Society Sales be EITHER from a BVD Accredited Herd within a CHcCS approved Herd Health Scheme OR to have been BVD tested virus free.

Herd Health Declaration

The sale entry form is accompanied by a Herd Health Declaration form asking vendors questions regarding for example: TB status; membership of CHcCS (www.checs.co.uk) health schemes (AFBI Cattle Health Scheme, HiHealth Herdcare (Biobest), & Premium Cattle Health Scheme (SRUC) and Johne's, BVD, IBR and Lepto status. On line entries also require the Herd Health Declaration form to be completed.

Is the Herd Health Declaration compulsory?

The Herd Health Declaration is compulsory at all Premier Collective Sales. For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

Although not compulsory at other collective sales (Newark in April & Ballymena, Dungannon, Thainstone & Stirling in May), the Society recommends that vendors complete the Herd Health Declaration. This information then appears in the Vendors' Index within the catalogue. Where a member has chosen not to complete the Herd Health Declaration, it will simply say 'No Herd Health Declaration'.

What Other Health Information may be displayed?

It should be noted that the Herd Health information provided in the catalogue relates to whole herd status. Information relating to specific animals entered in the sale should be requested from the vendor.

Vendors are encouraged to apply to their respective CHcCS health scheme for individual animal health cards for display on pens. For an individual animal's test results, or vaccination histories, regarding BVD, IBR, Lepto or Johne's, these are permitted above the sale pens only upon presentation of a signed veterinary declaration to verify that the animal concerned has had a clear test.

Again, for reasons of practicality, no health information notes are to be put in the catalogue footnotes by vendors. Similarly, the Society has requested that no declarations on health information be given by the auctioneer during the sale. Again, the sole purpose of this is to avoid confusion and to try and ensure that the information provided is done accurately, fairly and in a standardised format in the catalogue. This point has been agreed with the auctioneers.

Johne's Risk Levels

The Herd Health Declaration includes a section where breeders are able to indicate their Johne's Risk Level, once known. It is a condition of BLCS Premier Collective Sales that animals from herds that are Johnes Risk Level 5 are not permitted to be sold. Should you have any queries regarding the new Johne's Risk Level classification, please contact your respective CHcCS health scheme.

What if a vendor is selling an animal/s that he did not breed?

Vendors are still requested to fill in the Herd Health Sale Declaration accordingly. Prospective customers are advised to speak to vendors directly to acquire accurate health information on animals offered but not bred by the seller.

Feedback & more information

The Society welcomes members' and customers' feedback on the Herd Health Declarations and health policy at sales. If you have further questions, please speak to the Society representative, Alice Swift or the Auctioneers.

Appendix from National Beef Association bull breeding warranty.

4.2 Trial Period The purchaser shall give the bull sufficient time and opportunity to prove itself capable of getting stock by natural service while applying the standards of good husbandry and management as per Appendix A and, subject to clause 4.3 hereof, in any event within six calendar months of the date of sale, or within six calendar months of attaining the age of fourteen months (whichever is the later) (THE TRIAL PERIOD). A claim for infertility or incapability will not normally be accepted in the case of an inexperienced bull until he has been allowed a minimum of three natural heat cycles with the females.

4.3 Deferring the trial period. If upon purchase of the bull it is found impracticable for the purchaser to try the bull fairly within the Trial Period stated in Clause 4.2 above due to the Purchasers normal calving programme, the Purchaser shall on the day of the sale, or within the next seven days, give the Auctioneers notice in writing of the month in which it is proposed to commence using the bull. At the discretion of the vendor (in consultation with the Auctioneers, if applicable) the Vendor may defer the date of the commencement of the trial period of three calendar months (THE DEFERRAL PERIOD) Acceptance or otherwise of the Purchaser's written request, shall be conveyed to the Purchaser by the Auctioneer in writing, within seven days of the request being made.

If the Trial Period is deferred the bull should not be used during the Deferral Period

Important Notice to Vendors & Purchasers

The full Auction Rules of the BLCS can be viewed in the Society's Byelaws and on the website www.limousin.co.uk. A paper copy can be made available upon request to the BLCS office.

ARRIVAL OF STOCK - As per timetable of events.

PRE-SALE INSPECTION: BULLS - All bulls must be available for inspection, as per the timetable of events. A Veterinary Officer will examine all bulls forward for general health and genetic defects, particularly teeth, eyes, locomotion. The Veterinary Officer and appointed Society Inspector will check general conformation, locomotion and breed characteristics and temperament. Any animal discovered with a genetic fault, disease or disorder will be **REJECTED**. Animals will be placed in a crush for this inspection - as required by the Veterinary Officer. The Veterinary inspection will form an integral part of the pre-sale inspection procedure.

Please note - "All animals are subject to a pre-sale inspection to provide a minimum standard and animals are sold with all patent defects, and any subsequent claim after the fall of the hammer is against the vendor and not The British Limousin Cattle Society Ltd".

PRE-SALE SHOW - All Bulls and females passing the pre-sale inspection must be shown where a pre-sale show is in place. Animals up to and including 24 months of age will be entered in to show classes. Animals 25 months of age and older will be paraded ahead of the pre-sale show only. At its discretion, the society reserves the right to deny entry of an animal to the sale if it has not been presented for showing in accordance with bylaw 14.19.

IDENTIFICATION MARKS - At the point of inspection all animals born after 01 January 1998 must be clearly identified in accordance with bye-law 3.12. This includes all calves at foot.

MARGINAL TEETH - Any bull found to have marginal teeth when inspected will have their sale ticket marked in yellow.

Bulls with marginal teeth will be eligible to be shown in the pre-sale show. BLCS

RECORDED WEIGHTS - All bulls will be weighed by BLCS Officials as an integral part of the pre-sale inspection procedure.

Official weights (in kgs) will be displayed above each pen. **EVERY BULL** entered for the Sale, **MUST BE ADEQUATELY TRAINED TO LEAD BY HALTER** and **MUST BE PARADED FOR INSPECTION** unless exempted by the Stewards, at the time and place to be notified. Evidence of faults of temperament, vices, etc., may lead to disqualification. All bulls must be provided with a serviceable halter, which will become the property of the purchaser. Please ensure all cattle passport documentation is handed to the Market Sales Office upon arrival. Failure to do so or if for any reason the paperwork does not correspond to the cattle being offered for sale, such animals will be not be put forward for the auction. The proceeds of sale are guaranteed by the Auctioneers, however, this does not extend to the animals sold for export, to which special conditions apply.

UPSET PRICES - There will be an 'Upset' price of 2,500 guineas on each bull and 1,500 gns presented for sale - i.e. if no opening bid of 2,500/1,500 guineas is received for any particular lot, that lot will be passed out of the ring unsold.

RESERVE PRICES - Vendors shall have the right to refuse to accept the final bid for their animals. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price. All animals will be sold in guineas (105 pence) and a commission of 5.25% will be charged by the Auctioneers on all sales. A further levy of 1.5% will be charged and paid to the British Limousin Cattle Society. No animal may be sold privately before being passed through the auction ring and full commission will be charged on the sale of any animal sold by private treaty after the auction. All such transactions must be passed through the auctioneers office.

NBA WARRANTIES - This Sale is also held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle by the National Beed Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and, in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for Pedigree Cattle Breeders, the Council of the Association has decided that a special levy, amounting to £3 per male and £2 per female head/lot sold (plus VAT) shall be charged to each Purchaser.

STRAW - A limited amount of bedding straw will be provided.

Goodrest Sires of Pedigree cows and Sires used.

Greensons Fluke PP

Homozygous stock bull from Newhouse lines. Sire to most of the commercial herd.

Greensons Howlett PP

Homozygous polled. Easy calving, short gestation with remarkable growth rates and docility. Milky daughters.

Greensons Montana Pp

By Bailea BMW. Small easy born calves. Muscle and length.

Greensons Orson Pp

By Tigris out of Mereside cow. High muscling and exceptional growth rates. Great maternal traits.

Greensons Outlaw Pp

By Sought after bull Socrates out of a milky Howlett sired cow.

Goodrest Rochester Pp

Sired by Greensons Orson out of a Howlett daughter. Enormous growth rates and super temperament

Goodrest Santosh PP

Sired by Greensons Orson out of our darling Howlett daughter Lyrical. Santosh has given us beautiful calves and is now owned by the Wrench family.

Goodrest Tavish Pp

Truly gentle and kind. Sired by German easy calving bull Manday out Grahams Rachel who is by Claragh Franco.

Goodrest Thankmar PP

Hard working long bodied bull, used on heifers. From a well used German AI sire Loyd and from a Millington cow. Produces size.

Ampertaine Jamboree Horned.

Proven easy calving bull

Mereside Lorenzo Horned.

Consistently adding shape and Conformation to progeny. Easy calving.

Claragh Franco Horned.

Son of Wilodge Fantastic out of Sympa daughter. Exceptional bull siring Grahams Ruth

Hinz PP

Hinz PP brings performance, style, correctness and muscle development. Progeny have excellent temperament.

Mateo PP

We can expect outstanding milk yield combined with good growth and clearly above average rump width of the progeny

Homere Pp

A powerful bull from the renowned French breeder Chateau Pique-Segue .

Haaland PP

A blend of French and German lines with great daily weight gains.

Lego PP

Exciting bull with exceptional growth rates from the renowned Gaec De Chez Massiat

Indigo PP

A homozygous polled Limousin bull with correct conformation and clean bone structure. Calves are small and quick growing.

KHW Kenni PP

Canadian German lines with impressive muscling and high daily gain. Small when born. Was a European sell out for a while. Super results.

Akkedal Hero PP

Danish powerhouse. Great maternal qualities with very high fertility. Milky daughters.

Loyd PP

A well used German line proven time and time again even on Dairy heifers. Meadow Quality Bull.

Ultimo PP

A truly amazing Swiss bull for ease of calving and vigour in calves.

HT Manday PP

By Luxembourg bull JK Madhu. Small born calves with good growth rates and exceptional temperament.

Justo PP

Mateo and Tigris lines. Potential for optimum muscular growth and Maternal qualities.

Oddbjorn av Stromvik PP

Large attractive bull. A rare find from Sweden. Thickset offspring with great growth rates.

Thunstettens Haribo PP

A popular Swiss bull for growth rates. Can be used on heifers. Compact and well muscled.

Palue Pp

A Swiss line for easy calving on heifers. Attractive bull with proven statistics on carcass yield of offspring.

Gaitan PP

German bull with excellent muscling qualities and low birth rates.

LZB Nautilus PP

French, Danish and Luxembourg pedigree. Continuous high growth rates with harmonic muscularity and excellent feet and legs.

Lemmi PP

Maternal pedigree with high milk yield. Excellent muscle expression and confirmation.

Homozygous Polled A super long bull, Thankmar is bred from a homebred Milligton x Greenson heifer to a best selling German Mastergen Meadow quality bull. Thankmar has served both heifers and two herds of cows and has worked very hard. His calves have proved quick to feed and are growing tremendously. He is sold in working clothes and has had a short rest. He is ready to resume his career in either the beef or dairy sector.

Heterozygous Polled, Homozygous Red. A neat and efficient bull with the benefits of a Grahams Claragh Franco sired dam and an easy calving Mastergen sire. Tavish has worked very hard for us and has remained kind and easy to handle. We have used Tavish on heifers, and he has served a herd of cows for us also. Tavish has had a short rest and is now ready to resume a career and will work hard. Tavish has a red only pedigree.

Homozygous Polled Homozygous Red A quality bull from Grahams cow to highly praised Swedish bull Oddbjorn. Torbjorn was easily born and has grown with speed and style. He is quiet and biddable and will be a useful bull to use on both heifers and cows and guarantees no horned calves to any cow. He has red genetics with no black breeding. A useful prospect for a pedigree herd.

Homozygous Polled Another striking bull from an enormous Millington Cow, Udo is by Mateo sired Italian bull Justo. He is a thick set muscled bull on a double F94L genetic. He was hand reared after losing his dam to complications of her age and caesarian section. He has been extensively handled and shown and he has an impeccable personality.

PRE-MOVEMENT TB TESTING

All cattle over 42 days of age from 1 or 2 year testing parishes must have passed a TB test within the last 60 days. Cattle coming from 3 or 4 year testing parishes are exempt.

EAR TAGGING

All cattle – Born: after 1st April 1998 – must be tagged with two approved ministry ear tags before entering the market. Unfortunately we do not have the facilities to tag cattle in the market on the day of sale.

PAYMENT

All purchases must be paid for in full on the day of sale and prior to any purchased animals leaving the market unless prior arrangement has been made with the Auctioneers before the sale day.

No purchases shall be removed from the sale yard without an official 'pass-out' issued by the Auctioneers.

Payment will be made by **cheque** payable to Rugby Farmers Mart Ltd or Bank Transfer on the day. Payment by cash to a limit of £9,000.00 Stirling will be accepted by the Auctioneers **NO CARD PAYMENTS ACCEPTED**

Persons wishing to purchase at this sale and having not dealt with the Auctioneers before must satisfy the Auctioneers of their credit worthiness by providing a bank reference or a reference from a recognized firm of auctioneers. As well as the buyer registration form filled out in full. This can be found by scanning the QR code on the back page, visiting our website where you will find the form under 'downloads' or contacting the office 02476 69773.

All livestock sold at pedigree sales conducted by Rugby Farmers Mart Ltd will be sold in guineas.

CONDITIONS OF SALE

All stock will be sold in accordance with the 'Livestock Auctioneers Association Conditions of Sale 1998' as varied. A copy of which is on display in the market office and any conditions laid down by the relevant breed society or cattle association.

COMMISSION RATES & CHARGES

Commission upon all stock will be charged upon the guinea basis with the five pence per guinea being retained by the Auctioneers Rugby Farmers Mart Ltd on all Pedigree stock. Commercial stock will be sold with the normal commission rates that form part of RFM Ltd's terms of business chargeable to the vendor unless stated otherwise

THE FARMING EQUIPMENT AND TECHNOLOGY FUND (FETF) 2024

APPLICATION WINDOWS ARE NOW OPEN
WITH A HUGE LIST OF ITEMS AVAILABLE!

APPLICATION WINDOWS

PRODUCTIVITY AND SLURRY ITEMS - 6TH MARCH TO 17TH APRIL 2024.

THIS APPLICATION WINDOW WILL CLOSE AT MIDDAY ON 17TH APRIL 2024.

ANIMAL AND WELFARE ITEMS - 20TH MARCH TO 1ST MAY 2024.

THIS APPLICATION WINDOW WILL CLOSE AT MIDDAY ON 1ST MAY 2024.

THE FARMING EQUIPMENT AND TECHNOLOGY FUND

The Farming Equipment and Technology Fund (FETF) for the year 2024 offers three grants to help you buy equipment or technology to enhance your farm's productivity, manage slurry, and improve animal health and welfare. Applications for the FETF 2024 are submitted through the Farming Investment Fund service.

SUSTAINABLE FARMING INCENTIVE

The Sustainable Farming Incentive SFI application window is now open for applications with no current closing window. This scheme is a three-year agreement with a range of 23 different options available. There is a management payment of £20/ha now available, up to a total of £2,000 for each application. It is understood there are to be new standards introduced in the summer of 2024 which can be added to an SFI agreement if you put one in now.
