FOREWORD

Simmentals were first introduced to Brookhill Farm in the late 60's by my father to start a cross bred Beef Herd. In the 1970's this turned into a Pedigree Herd, Peatling Simmentals. Then in 2008, when my brother left the farming partnership, we had a farm sale from which Jenny and I rebuilt the Peatling herd on our own, to our current numbers of over 100 cattle. At this time we also joined the Cattle Health Scheme and we are BVD accredited (since 2013), Johnes level 3, leptos and IBR monitored.

We have shown cattle throughout our farming career, more recently only attending local one day shows. Peatling Matilda B, named after my granddaughter, enjoyed particular success and her daughters are included in the sale. Over recent years we have won Female Breed Champions at shows such as Ashby, Leicester, Blasdon, Ashover, Canwell and Kenilworth on multiple occasions. Show success are included in the Catalogue.

From 2008 we have also been a closed Herd, only buying in Stock Bulls.

The most recent addition, Wroxall Let Loose (included in the sale) is Heterozygous polled. Over the last few years the herd has been ran more commercially with 10-12 month old steer calves being sold at RFM.

We have made the decision to retire from day-to-day farming, hence the sale today, but don't worry, we will still be acting as a wool collection centre for Laurence Pierce Wool Merchants so won't be disappearing altogether!

Thank you for attending our sale and good luck,
Steve & Jenny

Peatling Matilda B with Granddaughter Matildia in 2012 at Leicester County Show

AUCTIONEERS FORWARD

The Staff and Directors are delighted to act upon behalf Steve & Jenny Eales in conducting their Retirement Sale.

Long standing Customers to RFM Ltd, Steve and his family are well known throughout the Midlands partly due to their annual Wool Collection for Laurence Pierce, but more so for the quality of the Simmental Pedigree Herd, widely shown within the area. The long established Peatling Herd boasts a CHeCS High Health Status, BVD Accreditation and a fully closed Herd Status save as for replacement Herd Sires, which are scrutinised before introduction. Bred for Size and Capacity the Herd sells framed going on Store Cattle that provide grade and weight for finishers, traits synonymous with the Breed. Success in the Show ring has been mirrored by success in the Sale ring with Suckled Calves always showing forwards for age. Herd Sires Storersmith Einstein 13 followed latterly by Sacombe Gladiator 15 have provided the Herd with Capacity and frame with both Bulls full of length and muscling. In more recent years the Family have introduced Wroxall Let Loose 20, a Hetrozygous Polled Bull, that provides a more compact Genetic with good skins and impressive 200 day growth rates.

This Sale provides the final fruits of a lifetime of work completed by Steve and Jenny to provide a wonderful Pedigree Herd that is very true to type, milky and will be a good addition to any Pedigree Herd wishing to retain length and Maternal traits. Equally the same traits allow these Cows to offer the perfect crossing Cows for any Herd.

The Auctioneers highly recommend this most genuine Herd. furthermore the high percentage of Cows and Heifers falling to Calve between December and March should be of interest to many Herds.

The Machinery and Equipment on offer provides a variety of well maintained and modern Lots. With new items bought regularly as needed the Sale provides a modern and full set of Machinery suitable for any Grassland Farm.
